Benefits and Payroll Guide

Version 3.2 | Effective January 1 | Owner: People Operations

1. Payroll Schedule

Employees are paid bi-weekly, every second Friday, by direct deposit. If a payday falls on a bank holiday, payment is made on the preceding business day. Pay statements are available in the HR portal under Pay, then Pay Statements, from the morning of payday.

Payroll closes 5 working days before each payday. Changes to bank details, tax withholding or address made after that date take effect on the next pay cycle.

2. Direct Deposit and Tax Forms

To set up or change direct deposit, go to HR portal, Pay, then Direct Deposit, and enter your routing and account numbers. A new account is verified with a test deposit of less than one dollar, which can take up to 3 working days.

Update your federal W-4 withholding at any time in the same area of the portal. W-2 forms are published in the portal by January 31 each year.

3. Health Insurance

3.1 Eligibility and enrollment

Full-time employees are eligible for medical, dental and vision coverage on the first day of the month following their start date. You have 30 days from your start date to enroll. After that you can only change your plan during open enrollment in November, or after a qualifying life event such as marriage or the birth of a child, which you must report within 30 days.

3.2 Cost

Company Inc. pays 90 percent of the premium for employee-only coverage and 75 percent of the premium for coverage that includes dependents. Premiums are deducted from pay before tax.

3.3 Plans

Two medical plans are offered: a PPO plan and a high-deductible plan that can be paired with a Health Savings Account (HSA). The company contributes 500 dollars per year to the HSA of employees on the high-deductible plan.

4. 401(k) Retirement Plan

Employees can join the 401(k) plan on their first day and are automatically enrolled at 4 percent of pay after 30 days unless they opt out. The company matches 100 percent of contributions up to 4 percent of pay, and a further 50 percent of contributions between 4 and 6 percent.

Company matching contributions vest on a 3-year schedule: you own 33 percent after one year, 66

percent after two years and 100 percent after three years of service. Your own contributions are always 100 percent vested. Manage your contribution rate and investments on the provider website, linked from the HR portal.

5. Learning and Development Stipend

Every employee receives a learning stipend of 1,500 dollars per calendar year for courses, books, conferences and certifications related to their role. Unused stipend does not roll over.

Pay for the item yourself and submit an expense report with the category Learning and the receipt or certificate of completion. Conference travel is booked separately under the travel policy. Courses over 1,500 dollars need prior approval from your manager, and the company may ask you to repay course fees if you leave within 6 months of completing a certification it paid for.

6. Wellness Stipend

A wellness stipend of 50 dollars per month can be used for a gym membership, fitness classes or a meditation app. Submit receipts monthly through the expense system under the category Wellness. The stipend is taxable income and appears on your pay statement.

7. Employee Referral Bonus

Employees who refer a candidate who is hired receive a referral bonus of 2,000 dollars for most roles and 4,000 dollars for engineering roles. The bonus is paid in two parts: half after the new hire completes 90 days and the remainder after 6 months. Submit referrals through the careers page before the candidate applies; referrals made after an application do not qualify. Managers cannot receive a bonus for hires on their own team.

8. Employee Assistance Program

All employees and their household members can use the confidential Employee Assistance Program (EAP) at no cost, including up to 6 counseling sessions per issue per year. Call the number on the back of your insurance card or use the EAP link in the HR portal.
